Post Communications by July 2: Updated EVV Service Bill Codes Table & Cures Act EVV Practice Period

Background:

The EVV Services Bill Codes Table provides current billing codes for EVV-relevant services in Managed Care, Long-Term Care, and Acute Care programs. Program providers and FMSAs can refer to the table for the list of EVV-relevant services and bill code information to avoid EVV visit transaction rejections and EVV claim mismatches.

Key Details:

Effective June 15, the EVV Service Bill Codes Table has been updated. The table is located on the HHS EVV website in the section Service Bill Codes Table. See the Revision History in the document for a complete list of the changes.

Cures Act program providers and FMSAs can also refer to the EVV Service Bill Codes Table for the list of services that will require EVV beginning Dec. 1 and included in the EVV Practice Period from July 1 – Nov. 30.

Additional Information:

An MCO Notice posted on Feb. 27 requesting system changes for Cures Act implementation included an EVV bill code excerpt of CDS/SRO services internal to HHSC and MCO only. This bill code excerpt is different from the EVV Service Bill Code Table published on the HHS EVV website. MCOs should continue referring to the internal-only table excerpt to finalize the system changes outlined in the Feb. 27 notice.

Action:

MCOs should post the attached communication to the appropriate areas of their website **by July 2**.
