## Post Communication about EVV Practice Period by June 11

### Background:

HHSC publishes updated Electronic VisitVerification (EVV) program information to program providers and financialmanagement services agencies (FMSAs) via GovDelivery. HHSC then sends thisinformation to MCOs to share with their program providers and FMSAs.

### KeyDetails:

From July 1, through Nov. 30, an EVV practice period will allowprogram providers and FMSAs impacted by the Cures Act to practice using the EVVsystem, EVV Portal, and EVV claims matching. Consumer directed services (CDS)employers can practice using the EVV system. During the practice period EVVclaims will not be denied for an EVV claims mismatch. Beginning Dec. 1, all service visits for an EVV-required service mustbe captured in the EVV system. Claims that don't have a matching EVV visitttransaction in the EVV Portal will be denied.

### Action:

MCOs should post the attached communication to the appropriate areas oftheir website **by June 11**.
