

IMPORTANT NOTIFICATION

RE: Radiation Therapy Codes

TO: Our Valued Provider

FROM: Cigna-HealthSpring

DATE: 06/14/18

This is a friendly reminder that CPT codes **77336** is considered a “per week of therapy” and should be reported once for each week (5 treatments) of therapy. The date of service reported for code 77336 should be the date of the last treatment for a particular “week” of therapy.

Since radiation planning procedures (CPT codes 77261-77334) are generally performed before radiation treatment commences, CPT codes 77261-77295, 77301-77318, and 77332-77334 should not be billed with code 77336. Your claim will deny if billed improperly.

If radiation planning procedures are repeated during a course of radiation treatment or when the radiation planning procedure and continuing medical physics consultation are reported on the same date of service, use modifier 59 with code 77336.

When billed by a participating Provider, code 77336 does not require an authorization.

For additional information refer to the TMHP website under Radiation Physics Services:
[http://www.tmhp.com/sites/search/results.aspx?k=radiation physics services](http://www.tmhp.com/sites/search/results.aspx?k=radiation%20physics%20services)

Please feel free to call Provider Services at 1-877-653-0331, Monday to Friday, 8a.m. to 5p.m. Central Time.

Sincerely,

Cigna-HealthSpring
Claims Department
